GROUP HEALTH FOUNDATION

2019 Community Learning Survey

In our 2019-2020 grantmaking, Group Health Foundation seeks to learn as much as possible about the people, leaders, organizations, and communities of Washington State. To support this work we are asking for information from all grantees to help us assess progress toward our stated goals of supporting organizations who are committed to—and who practice—community-centered leadership. We place a high value on honest self-reflection, and invite you to share with us who you work with and how you center different identities that are relevant to health and well-being. Thank you in advance!

Please share with us some information about how your organization's leadership identifies.
